Please find below and/or attached an Office communication concerning this application or proceeding.

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on 12 February 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Response to Amendment

1. Claim 6 has been amended as requested in the amendment of Paper filed on February 12, 2004. Claims 1 and 4-8 are pending in the instant application.

Claims 1 and 4-8 are under examination in the instant office action.

2. The Text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Any objection or rejection of record, which is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.

4. Applicant submits that Power of Attorney changes have been made in the instant application. Applicant is advised that, according to PALM system, these changes are not of record.

5. Applicant's arguments filed on February 12, 2004 have been fully considered but they are not deemed to be persuasive for the reasons set forth below.

Claim Rejections - 35 USC § 102

6. Claims 1 and 4-7 stand rejected under 35 U.S.C. 102(e) as being anticipated by Isfort et al. (US Patent Application Publication No. 2003/0165807, filed 03/06/2001) for those reasons of record in section 2 of Paper No. 13.

The Combined Declaration of Vale filed on February 12, 2004 under 37 CFR 1.131 and 37 CFR 1.132 has been presented in the instant application. The Declaration discusses an article of Reyes et al. published on February 27, 2001 (reference AH of the IDS submitted on February

12, 2004), which discloses the polypeptide sequence of murine urocortin II, including the peptide coding region (SEQ ID NO: 10 and 11 of the instant specification). The Declaration also states that "the work set forth in Reyes et al. was the work of the Applicants" (bottom at page 5 of the declaration).

Applicant is advised that the Declaration of Vale under 37 CFR 1.132 filed on February 12, 2004 is sufficient to establish that Reyes et al. publication is a work of the Applicants and, therefore, is not 102(a) reference with regard to the instant invention.

However, the part of the Declaration of Vale filed on February 12, 2004 under 37 CFR 1.131 has been considered but is ineffective to overcome the Isofort et al. reference because it does not comply with 37 CFR 1.131, section (a).

37 CFR 1.131. Affidavit or declaration of prior invention.

(a) When any claim of an application or a patent under reexamination is rejected, the inventor of the subject matter of the rejected claim, the owner of the patent under reexamination, or the party qualified under §§ 1.42, 1.43, or 1.47, may submit an appropriate oath or declaration to establish invention of the subject matter of the rejected claim prior to the effective date of the reference or activity on which the rejection is based (emphasis added).

See also MPEP 715.04 Who May Make Affidavit or Declaration; Formal Requirements of Affidavits and Declarations, section (A).

WHO MAY MAKE AFFIDAVIT OR DECLARATION

The following parties may make an affidavit or declaration under 37 CFR 1.131:

(A) All the inventors of the subject matter claimed.

(B) An affidavit or declaration by less than all named inventors of an application is accepted where it is shown that less than all named inventors of an application

one of two joint inventors is accepted where it is shown that one of the joint inventors is the sole inventor of the claim or claims under rejection.

(C) A party qualified under 37 CFR 1.42, 1.43, or 1.47 in situation where some or all of the inventors are not available or not capable of joining in the filing of the application.

(D) The assignee or other party in interest when it is not possible to produce the affidavit or declaration of the inventor. *Ex parte Foster*, 1903 C.D. 213, 105 O.G. 261 (Comm'r Pat. 1903).

Affidavits or declarations to overcome a rejection of a claim or claims must be made by the inventor or inventors of the subject matter of the rejected claim(s), a party qualified under 37 CFR 1.42, 1.43, or 1.47, or the assignee or other party in interest when it is not possible to produce the affidavit or declaration of the inventor(s). Thus, where all of the named inventors of a pending application are not inventors of every claim of the application, any affidavit under 37 CFR 1.131 could be signed by only the inventor(s) of the subject matter of the rejected claims. Further, where it is shown that a joint inventor is deceased, refuses to sign, or is otherwise unavailable, the signatures of the remaining joint inventors are sufficient. However, the affidavit or declaration, even though signed by fewer than all the joint inventors, must show completion of the invention by all of the joint inventors of the subject matter of the claim(s) under rejection. *In re Carlson*, 79 F.2d 900, 27 USPQ 400 (CCPA 1935).

Because the Declaration submitted on February 12, 2004 was not signed by all inventors ("the inventor") of the instant application, it is considered insufficient at this time, therefore, the instant rejection is maintained.

Claim Rejections - 35 USC § 103

7. Claim 8 stands rejected under 35 U.S.C. 103(a) as being unpatentable over Isfort et al. (US Patent Application Publication No. 2003/0165807, filed 03/06/2001) for reasons of record in section 5 of Paper No. 13.

Applicant submits that the reference of Isfort et al. cannot serve as 102 (e) reference in view of the Vale Declaration. However, because Declaration of Vale has been found to be insufficient for those reasons of record in section 6 of the instant office action and 102 (e) rejection of record is maintained, the instant rejection under 103(a) is maintained as well.

Conclusion

8. No claim is allowed.

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
